

RESUME

HARSH SINGH

B.Tech Information Technology Student

Ayodhya, Uttar Pradesh — +91-9118883164 — harsh9118883164@gmail.com
[LinkedIn Profile \(Click Here\)](#) — [GitHub Profile \(Click Here\)](#) — [Portfolio Website \(Click Here\)](#)

CAREER OBJECTIVE

Motivated B.Tech (IT) student currently entering 5th semester with hands-on internship experience in AI/ML and strong foundations in programming and problem-solving. Seeking an internship opportunity to apply technical knowledge, build impactful applications, and grow as a software developer.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
Dr. Ram Manohar Lohia Avadh University (RMLAU), Ayodhya

2024 – Present
Current Semester: 5th

EXPERIENCE / INTERNSHIP

AI/ML Intern

MMMUT Gorakhpur

- Completed a structured internship program focused on Artificial Intelligence and Machine Learning applications from MMMUT Gorakhpur.
- Gained practical exposure to machine learning workflows, data handling, and AI-driven model integration.
- Developed and implemented a real-world project applying AI concepts to solve healthcare-related challenges.
- Verification:** [View Certificate on Portfolio \(Click Here\)](#)

TECHNICAL SKILLS

- Programming Languages:** C, C++, Java, Python
- AI & Machine Learning:** AI/ML Models, Predictive Modeling, Image Processing, API Integration
- Backend DBMS:** Backend Development, DBMS, Data Management
- Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs)
- App Development:** Java, Android Studio, Render (Deployment)
- Tools Platforms:** VS Code, GitHub, Google Colab, Android Studio

PROJECTS

AI Prescription Reader App

Python, AI/ML, Backend, DBMS

- Developed an AI-powered web application that processes prescription images using machine learning models.
- Extracted and identified medicine names from text and managed data storage efficiently via backend integration.
- Source Code:** [View Project on GitHub \(Click Here\)](#)

Student Performance Predictor

Python, Machine Learning, Render API

- Developed a machine learning model to predict student final scores based on parameters like attendance and study hours.
- Deployed the predictive model backend API live on Render for real-time access.
- Source Code:** [View Project on GitHub \(Click Here\)](#)

AstroMate App

Java, Android Studio

- Developed an astrology-based Android application using Java and Android Studio with a clean UI.
- Implemented name-based astrology information and text-sharing features.
- Source Code:** [View Project on GitHub \(Click Here\)](#)

MusicSathi App

Java, Android Studio

- Built a music player Android application supporting local audio file playback and core track controls.
- Designed a clean and minimal UI layout for seamless user experience.
- **Source Code:** [View Project on GitHub \(Click Here\)](#)

CERTIFICATES

- **AI/ML Internship Certificate:** Successfully completed internship in AI/ML applications from MMMUT Gorakhpur. [View Certificate on Portfolio \(Click Here\)](#)
- **Coding Participation Certificate:** Awarded for participating in competitive programming and technical coding challenges. [View Certificate on Portfolio \(Click Here\)](#)

ACHIEVEMENTS

- Awarded First Position at the school level in the prestigious Tata Building India Essay Competition (Senior Category - Hindi). [View Certificate on Portfolio \(Click Here\)](#)
- Consistently practicing DSA on online platforms and building practical AI and Android projects with live backend deployment.

DECLARATION

I hereby declare that the above-mentioned information is true and correct to the best of my knowledge and belief.

Place: Ayodhya
