👤 CAREER OBJECTIVE

Motivated B.Tech (IT) student currently entering 5th semester with hands-on internship experience in AI/ML and strong foundations in programming and problem-solving. Seeking an internship opportunity to apply my technical knowledge, build impactful applications, and grow as a software developer. Explore my interactive portfolio at **Vercel Portfolio** to view my live projects and credentials.

🎓 EDUCATION

Bachelor of Technology (B.Tech) in Information Technology 2024 – Present
Dr. Ram Manohar Lohia Avadh University (RMLAU), Ayodhya
Current Semester: 5th

📁 EXPERIENCE / INTERNSHIP

AI/ML Intern

- Completed a structured internship program focused on Artificial Intelligence and Machine Learning applications.
- Gained practical exposure to machine learning workflows, data handling, and AI-driven model integration.
- Developed and implemented a real-world project applying AI concepts to solve healthcare-related challenges.

⚙️ TECHNICAL SKILLS

- Programming Languages:** C, C++, Java, Python
- Artificial Intelligence Machine Learning:** AI/ML Models, Predictive Modeling, Image Processing, API Integration
- Backend DBMS:** Backend Development, DBMS, Data Management
- Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs)
- App Development:** Java, Android Studio, Render (Deployment)
- Tools Platforms:** VS Code, GitHub, Google Colab, Android Studio
- Soft Skills:** Strong analytical thinking, Logical approach, Quick learner

💻 PROJECTS

AI Prescription Reader App — Python, AI/ML, Backend, DBMS

- Developed an AI-powered web application that takes a prescription image input, processing it through machine learning models.
- Integrated image processing and machine learning techniques to accurately extract and identify medicine names from handwritten or printed prescriptions.
- Managed data storage and retrieval efficiently via backend and DBMS integration to streamline medical record handling.
- 🔗 For project code and info: Click Here

Student Performance Predictor — Python, Machine Learning, Render API

- Developed a machine learning model to predict student final scores based on input parameters such as attendance, study hours, and past marks.
- Integrated the predictive model with an application and deployed the backend API live on Render for real-time access.
- 🔗 For project code and info: Click Here

AstroMate App

— Java, Android Studio

- Developed an astrology-based Android application using Java and Android Studio.
- Worked on UI design, navigation, and user interaction features.
-  For project code and info: [Click Here](#)

MusicSathi App

— Java, Android Studio

- Built a music player Android application with audio playback features.
- Implemented playlist handling and user-friendly interface.
-  For project code and info: [Click Here](#)

CERTIFICATES

AI/ML Internship Certificate

- Successfully completed industrial/institutional training and certification in AI/ML applications.
-  To view this and other verified certificates, visit my portfolio: [Click Here](#)

Coding Participation Certificate

- Awarded for participating in competitive programming and technical coding challenges.
-  To view this and other verified certificates, visit my portfolio: [Click Here](#)

ACHIEVEMENTS

- Awarded First Position at the school level in the prestigious Tata Building India Essay Competition (Senior Category - Hindi).
- Consistently practicing DSA on online platforms and building practical AI and Android projects with live backend deployment.

PERSONAL DETAILS

Name: Harsh Singh

Date of Birth: 03/06/2006

Nationality: Indian

Hometown: Ayodhya, Uttar Pradesh
